2312 By Kim Stanley Robinson

Winner of the Nebula Award for Best SF Novel of the Year

The year is 2312. Scientific and technological advances have opened gateways to an extraordinary future. Earth is no longer humanity's only home; new habitats have been created throughout the solar system on moons, planets, and in between. But in this year, 2312, a sequence of events will force humanity to confront its past, its present, and its future.

The first event takes place on Mercury, on the city of Terminator, itself a miracle of engineering on an unprecedented scale. It is an unexpected death, but one that might have been foreseen. For Swan Er Hong, it is an event that will change her life. Swan was once a woman who designed worlds. Now she will be led into a plot to destroy them.

Editorial Review

Review

"A magnificent achievement...hugely imaginative and beautifully written."? **Booklist (Starred Review) on 2312**

"2312 paints an absolutely credible and astonishingly beautiful picture of the centuries to come, of the sort of schism and war, the art and love, the industry and ethics that might emerge from humanity going to space without conquering it and without solving all its problems."? **Boingboing**

"Robinson's extraordinary completeness of vision results in a magnificently realized, meticulously detailed future in which social and biological changes keep pace with technological developments."? **Publishers Weekly**

"Intellectually engaged and intensely humane in a way SF rarely is, exuberantly speculative in a way only the best SF can be, this is the work of a writer at or approaching the top of his game."? **Iain M. Banks**

"2312 is a monumental tour-de-force that re-imagines the solar system in ways no one has envisioned before. Whether comparing the compositions of Beethoven to those of skylarks and warblers, or describing a life-threatening sunrise on Mercury, Robinson fills 2312 with joy and exuberance, danger and fear, and the steadily mounting suspense of a mystery that spans the planets. This is the finest novel yet from the author who gave us the Mars Trilogy and GALILEO'S DREAM. An amazing accomplishment."? **Robert Crais**

"Inherently epic stuff... expect interplanetary strife, conspiracies, more big ideas than most SF authors pack into a trilogy... [yet] this is ultimately in so many respects a book about Earth... a wise and wondrous novel"? **SFX**

"Complex and sometimes bewildering, 500 pages crammed full of strange but decent characters whose actions play out against a vastly constructed utopian background."? **Guardian**

"A feast for the imagination and intellect - shockingly clever"? **Sun (UK)**

"A brilliant, plausible account of how humans might colonize planets, moons and asteroids, 2312 is also about the future of art and family."? **NPR Books**

"This is a grand tour of an intensely imagined interplanetary future of modified human beings, terraformed planets, experiments in economics and sociology and hundreds of other delights. All of it is in Robinson's eloquent, enthusiastic and inimitable prose"? **Morning Star (UK)**

"In his vibrant, often moving new novel, "2312," Robinson's extrapolation is hard-wired to a truly affecting personal love story. [...] Perhaps Robinson's finest novel, "2312" is a treasured gift to fans of passionate storytelling; readers will be with Swan and Wahram in the tunnel long after reaching the last page."? **LA Times**

"An sf masterpiece."? **Library Journal**

"Beautifully written and with strong mental imagery... will change both your imagination and your

intellect."? ***SciFi Now***

About the Author

Kim Stanley Robinson is a *New York Times* bestseller and winner of the Hugo, Nebula, and *Locus* awards. He is the author of more than twenty books, including the bestselling Mars trilogy and the critically acclaimed *Forty Signs of Rain*, *The Years of Rice and Salt* and *2312*. Users Review

From reader reviews:

William Chapman:

Have you spare time for the day? What do you do when you have far more or little spare time? Yep, you can choose the suitable activity to get spend your time. Any person spent their spare time to take a walk, shopping, or went to typically the Mall. How about open or perhaps read a book allowed 2312? Maybe it is being best activity for you. You understand beside you can spend your time along with your favorite's book, you can wiser than before. Do you agree with its opinion or you have other opinion?

Diana Ham:

The book 2312 make you feel enjoy for your spare time. You can use to make your capable far more increase. Book can for being your best friend when you getting strain or having big problem using your subject. If you can make examining a book 2312 to be your habit, you can get far more advantages, like add your own capable, increase your knowledge about a number of or all subjects. You may know everything if you like start and read a guide 2312. Kinds of book are a lot of. It means that, science e-book or encyclopedia or some others. So , how do you think about this reserve?

Peter Barba:

The reason? Because this 2312 is an unordinary book that the inside of the book waiting for you to snap the item but latter it will distress you with the secret the item inside. Reading this book alongside it was fantastic author who all write the book in such remarkable way makes the content within easier to understand, entertaining approach but still convey the meaning completely. So , it is good for you because of not hesitating having this anymore or you going to regret it. This excellent book will give you a lot of advantages than the other book get such as help improving your skill and your critical thinking method. So , still want to hold up having that book? If I were you I will go to the guide store hurriedly.

Kathleen Carroll:

Many people spending their time period by playing outside having friends, fun activity together with family or just watching TV the whole day. You can have new activity to spend your whole day by reading through a book. Ugh, do you think reading a book can definitely hard because you have to accept the book

everywhere? It okay you can have the e-book, delivering everywhere you want in your Smartphone. Like 2312 which is getting the e-book version. So , why not try out this book? Let's see.
