Algebra and Trigonometry with Modeling & Visualization Plus MyMathLab with Pearson eText - Access Card Package (5th Edition) (Rockswold Series) By Gary K. Rockswold

ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you **select the correct ISBN**. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, **you may need a CourseID**, provided by your instructor, to register for and use Pearson's MyLab & Mastering products.

Packages

Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase.

Used or rental books

If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code.

Access codes

Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase.

--

By connecting applications, modeling, and visualization, Gary Rockswold motivates students to learn mathematics in the context of their experiences. In order to both learn and retain the material, students must see a connection between the concepts and their real lives. In this new edition, connections are

taken to a new level with “See the Concept” features, where students make important connections through detailed visualizations that deepen understanding.

Rockswold is also known for presenting the concept of a function as a unifying theme, with an emphasis on the rule of four (verbal, graphical, numerical, and symbolic representations). A flexible approach allows instructors to strike their own balance of skills, rule of four, applications, modeling, and technology.

Editorial Review

About the Author

Dr. Gary Rockswold has taught mathematics for 25 years at all levels from seventh grade to graduate school, including junior high and high school students, talented youth, vocational, undergraduate and graduate students, and adult education classes. He graduated with majors in mathematics and physics from St. Olaf College in Northfield, Minnesota, where he was elected to Phi Beta Kappa. He received his Ph.D. in applied mathematics from Iowa State University. He has an interdisciplinary background and has also taught physical science, astronomy, and computer science. Outside of mathematics, he enjoys spending time with his wife and two children.

Users Review

From reader reviews:

Marlon Hood:

In this 21st century, people become competitive in each way. By being competitive at this point, people have to do something to make these survive, being in the middle of the particular crowded place and notice simply by surrounding. One thing that often many people have underestimated this for a while is reading. Yes, by reading a book your ability to survive enhance then having chance to stand up than other is high. To suit your needs who want to start reading the book, we give you this kind of Algebra and Trigonometry with Modeling & Visualization Plus MyMathLab with Pearson eText - Access Card Package (5th Edition) (Rockswold Series) book as basic and daily reading reserve. Why, because this book is usually more than just a book.

Guadalupe Marshall:

Information is provisions for anyone to get better life, information these days can get by anyone from everywhere. The information can be an expertise or any news even a problem. What people must consider any time those information which is from the former life are hard to be found than now could be taking seriously which one is suitable to believe or which one the resource are convinced. If you obtain the unstable resource then you obtain it as your main information there will be huge disadvantage for you. All those possibilities will not happen in you if you take Algebra and Trigonometry with Modeling & Visualization Plus MyMathLab with Pearson eText - Access Card Package (5th Edition) (Rockswold Series) as your daily resource information.

James Jernigan:

Do you like reading a guide? Confuse to looking for your favorite book? Or your book was rare? Why so many problem for the book? But virtually any people feel that they enjoy regarding reading. Some people likes examining, not only science book but novel and Algebra and Trigonometry with Modeling & Visualization Plus MyMathLab with Pearson eText - Access Card Package (5th Edition) (Rockswold Series)

or perhaps others sources were given understanding for you. After you know how the fantastic a book, you feel would like to read more and more. Science book was created for teacher or students especially. Those guides are helping them to include their knowledge. In different case, beside science guide, any other book likes Algebra and Trigonometry with Modeling & Visualization Plus MyMathLab with Pearson eText - Access Card Package (5th Edition) (Rockswold Series) to make your spare time much more colorful. Many types of book like this one.

Jessica Seymore:

What is your hobby? Have you heard in which question when you got college students? We believe that that concern was given by teacher for their students. Many kinds of hobby, All people has different hobby. So you know that little person such as reading or as studying become their hobby. You should know that reading is very important as well as book as to be the issue. Book is important thing to include you knowledge, except your teacher or lecturer. You will find good news or update about something by book. Amount types of books that can you choose to use be your object. One of them is niagra Algebra and Trigonometry with Modeling & Visualization Plus MyMathLab with Pearson eText - Access Card Package (5th Edition) (Rockswold Series).
