Get Through FRCR 2A: Practice Papers for the Modular Examination By Daniel Scoffings

In 2002 the Royal College of Radiologists changed the structure of their Fellowship in Clinical Radiology examinations. This book covers the whole current FRCR syllabus, providing candidates with three complete MCQ practice papers for each module, accompanied by explanations and comprehensive references. As in the real examination 15-20% of questions cover radiological anatomy, techniques, and aspects of physics not covered by the First Examination for Fellowship. Written specifically to mirror the new FRCR 2A format the contents covers:

Module One: Chest and cardiovascular

Module Two: Musculoskeletal and Trauma

Module Three: Gastrointestinal and hepatobiliary

Module Four: Genitourinary, Obstetrics & Gynaecology, and Breast

Module Five: Paediatrics

Written by practising UK radiologists and supplemented with up-to-date material from major radiology journals and specialist textbooks, this book is an essential revision aid for all specialist registrars taking the second FRCR examination.

Editorial Review

Review

5 Stars

This is an excellent book for the FRCR 2A. It covers a broad range of highly relevant and popular topics. The answers provided are concise but all well referenced from most major textbooks and journals. I personally find this a more appealing format from a revision aid, much better than many other books I have come across which often provide pages of obscure drivel at the expense of more questions. Pleased to say it got me through all the modules I sat for last week!
