Positivity in Algebraic Geometry I: Classical Setting: Line Bundles and Linear Series (Ergebnisse der Mathematik und ihrer Grenzgebiete. 3. Folge / A Series of Modern Surveys in Mathematics) By R.K. Lazarsfeld

This two volume work on **Positivity in Algebraic Geometry** contains a contemporary account of a body of work in complex algebraic geometry loosely centered around the theme of positivity. Topics in Volume I include ample line bundles and linear series on a projective variety, the classical theorems of Lefschetz and Bertini and their modern outgrowths, vanishing theorems, and local positivity. Volume II begins with a survey of positivity for vector bundles, and moves on to a systematic development of the theory of multiplier ideals and their applications. A good deal of this material has not previously appeared in book form, and substantial parts are worked out here in detail for the first time. At least a third of the book is devoted to concrete examples, applications, and pointers to further developments.

Volume I is more elementary than Volume II, and, for the most part, it can be read without access to Volume II.

Editorial Review

Review

From the reviews:

"This ??? book offers a comprehensive, up-to-date account on ampleness and positivity in complex algebraic geometry. ??? The book contains a wealth of material and aims at readers with a certain overview in complex algebraic geometry. ??? the text never gets bogged down in technicalities, and is a pleasure to read. The presentation nicely reveals historical developments and mathematical interplay between various results. ??? A fine book indeed." (Stefan Schr??er, Zentralblatt MATH, Vol. 1066, 2005)

From the reviews:

"This a] book offers a comprehensive, up-to-date account on ampleness and positivity in complex algebraic geometry. a] The book contains a wealth of material and aims at readers with a certain overview in complex algebraic geometry. a] the text never gets bogged down in technicalities, and is a pleasure to read. The presentation nicely reveals historical developments and mathematical interplay between various results. a] A fine book indeed." (Stefan SchrAer, Zentralblatt MATH, Vol. 1066, 2005)

Users Review

From reader reviews:

Blanche Watson:

Book is to be different per grade. Book for children until adult are different content. As it is known to us that book is very important normally. The book Positivity in Algebraic Geometry I: Classical Setting: Line Bundles and Linear Series (Ergebnisse der Mathematik und ihrer Grenzgebiete. 3. Folge / A Series of Modern Surveys in Mathematics) has been making you to know about other know-how and of course you can take more information. It is quite advantages for you. The reserve Positivity in Algebraic Geometry I: Classical Setting: Line Bundles and Linear Series (Ergebnisse der Mathematik und ihrer Grenzgebiete. 3. Folge / A Series of Modern Surveys in Mathematics) is not only giving you considerably more new information but also to get your friend when you feel bored. You can spend your spend time to read your e-book. Try to make relationship together with the book Positivity in Algebraic Geometry I: Classical Setting: Line Bundles and Linear Series (Ergebnisse der Mathematik und ihrer Grenzgebiete. 3. Folge / A Series of Modern Surveys in Mathematics). You never experience lose out for everything should you read some books.

Robert Frith:

This Positivity in Algebraic Geometry I: Classical Setting: Line Bundles and Linear Series (Ergebnisse der Mathematik und ihrer Grenzgebiete. 3. Folge / A Series of Modern Surveys in Mathematics) are reliable for

you who want to become a successful person, why. The reason why of this Positivity in Algebraic Geometry I: Classical Setting: Line Bundles and Linear Series (Ergebnisse der Mathematik und ihrer Grenzgebiete. 3. Folge / A Series of Modern Surveys in Mathematics) can be on the list of great books you must have is usually giving you more than just simple looking at food but feed you actually with information that perhaps will shock your preceding knowledge. This book is actually handy, you can bring it all over the place and whenever your conditions at e-book and printed types. Beside that this Positivity in Algebraic Geometry I: Classical Setting: Line Bundles and Linear Series (Ergebnisse der Mathematik und ihrer Grenzgebiete. 3. Folge / A Series of Modern Surveys in Mathematics) giving you an enormous of experience like rich vocabulary, giving you test of critical thinking that we realize it useful in your day activity. So , let's have it and revel in reading.

Jason Caldwell:

Playing with family in the park, coming to see the ocean world or hanging out with close friends is thing that usually you might have done when you have spare time, subsequently why you don't try issue that really opposite from that. A single activity that make you not sense tired but still relaxing, trilling like on roller coaster you are ride on and with addition info. Even you love Positivity in Algebraic Geometry I: Classical Setting: Line Bundles and Linear Series (Ergebnisse der Mathematik und ihrer Grenzgebiete. 3. Folge / A Series of Modern Surveys in Mathematics), you can enjoy both. It is good combination right, you still wish to miss it? What kind of hang-out type is it? Oh occur its mind hangout folks. What? Still don't understand it, oh come on its identified as reading friends.

Mitchell Wilder:

What is your hobby? Have you heard that will question when you got scholars? We believe that that issue was given by teacher with their students. Many kinds of hobby, Everyone has different hobby. Therefore you know that little person just like reading or as examining become their hobby. You need to understand that reading is very important and also book as to be the matter. Book is important thing to increase you knowledge, except your own teacher or lecturer. You find good news or update concerning something by book. A substantial number of sorts of books that can you take to be your object. One of them is actually Positivity in Algebraic Geometry I: Classical Setting: Line Bundles and Linear Series (Ergebnisse der Mathematik und ihrer Grenzgebiete. 3. Folge / A Series of Modern Surveys in Mathematics).
