Atlas of Regional and Free Flaps for Head and Neck Reconstruction: Flap Harvest and Insetting By Mark L. Urken MD FACS, Mack L. Cheney MD FACS, Keith E. Blackwell MD, Jeffrey R. Harris MD, Tessa A. Hadlock MD, Neal Futran MD DMD

Discover a revolutionary approach to reconstructive surgery! Now in its Second Edition, *The Atlas of Regional and Free Flaps for Head and Neck Reconstruction* delivers clear, heavily illustrated coverage of regional skin, muscle, and musculocutaneous flaps as well as donor sites from distant regions of the body where vascularized skin, muscle, bone, and nerves can be harvested and transferred to the head and neck.

The Atlas will prove invaluable information to otolaryngologists, plastic surgeons, and general surgeons, who use both regional and free flaps to reconstruct damage to the head and neck caused by cancer and trauma. This Atlas provides the surgeon with techniques for mastering different donor sites needed to find solutions to virtually every reconstruction problem. It provides detailed descriptions of the anatomy and harvesting techniques of the major regional and free-flap donor sites currently employed in head and neck reconstruction.

The in-depth coverage that readers trust...

- **Clinically detailed full-color line drawings** emphasize proper harvesting technique for all flaps.
- **Full procedural discussions** address relevant anatomy, flap design and utilization, anatomic variations, preoperative and postoperative care, tips for avoiding potential pitfalls, and harvesting techniques for each donor site.
- **Use of fresh cadaver dissections** provides the most realistic portrayal of step-by-step detail that gives the resident and attending surgeon a thorough understanding of each donor site.

Plus a wealth of features NEW to the Second Edition...

- **New chapters** address the submental flap, ulnar forearm flap, anterolateral

thigh flap, paramedian forehead flap, cervicofacial advancement flap, and perforator flaps.

- **New content on skin-flap harvesting** includes: addition of the coronoid harvest process to the temporalis chapter; addition of the osteocutaneous radial forearm flap to the radial forearm flap chapter; addition of scalp harvest to the chapter on the temporoparietal fascial flap; addition of scapular tip harvest for use in palatamaxillary reconstruction; and addition of harvest of the IMA and IMV recipient vessels and harvest of the TAC system of vessels to the recipient vessel chapter.

- **New demonstrations** of flap inseting and design for a number of reconstructions

Editorial Review

Users Review

From reader reviews:

Monte Lawson:

What do you think of book? It is just for students because they are still students or this for all people in the world, what best subject for that? Just you can be answered for that problem above. Every person has different personality and hobby for every other. Don't to be pushed someone or something that they don't desire do that. You must know how great along with important the book Atlas of Regional and Free Flaps for Head and Neck Reconstruction: Flap Harvest and Insetting. All type of book is it possible to see on many sources. You can look for the internet resources or other social media.

Christopher Cunningham:

In this 21st millennium, people become competitive in every way. By being competitive right now, people have do something to make these individuals survives, being in the middle of the actual crowded place and notice by simply surrounding. One thing that at times many people have underestimated this for a while is reading. Yes, by reading a publication your ability to survive boost then having chance to stand up than other is high. In your case who want to start reading any book, we give you this particular Atlas of Regional and Free Flaps for Head and Neck Reconstruction: Flap Harvest and Insetting book as beginning and daily reading reserve. Why, because this book is greater than just a book.

Jesus Gates:

Don't be worry in case you are afraid that this book can filled the space in your house, you may have it in e-book technique, more simple and reachable. This specific Atlas of Regional and Free Flaps for Head and Neck Reconstruction: Flap Harvest and Insetting can give you a lot of friends because by you investigating this one book you have matter that they don't and make you actually more like an interesting person. This particular book can be one of a step for you to get success. This book offer you information that probably your friend doesn't recognize, by knowing more than different make you to be great men and women. So , why hesitate? We need to have Atlas of Regional and Free Flaps for Head and Neck Reconstruction: Flap Harvest and Insetting.

Teresa Dawkins:

Do you like reading a publication? Confuse to looking for your selected book? Or your book ended up being rare? Why so many problem for the book? But any kind of people feel that they enjoy to get reading. Some

people likes looking at, not only science book but novel and Atlas of Regional and Free Flaps for Head and Neck Reconstruction: Flap Harvest and Insetting or maybe others sources were given information for you. After you know how the fantastic a book, you feel wish to read more and more. Science book was created for teacher or perhaps students especially. Those textbooks are helping them to put their knowledge. In various other case, beside science reserve, any other book likes Atlas of Regional and Free Flaps for Head and Neck Reconstruction: Flap Harvest and Insetting to make your spare time far more colorful. Many types of book like this.
