Editorial Review

About the Author

Pawan Kumar is a Technical Architect with current expertise in Enterprise Content Management with EMC Documentum. He has an MS in Computer Science from University of North Carolina at Chapel Hill and a BS in Electrical Engineering from the Indian Institute of Technology, New Delhi (India). Pawan has experience developing products as well as delivering business solutions on the Documentum platform and has created two products for this platform. He is intimately familiar with effective processes and tools for achieving business objectives through Documentum-based technology solutions. He has led and executed requirements and design workshops, architecture design, scoping, estimation, project planning, resource planning, technical design, software development, software testing, solution roll-out, and ongoing support for the deployed solutions. Pawan has been architecting, designing, and developing enterprise applications for ten years. He has developed software systems for financial services, healthcare, pharmaceutical, logistics, energy services, and retail industries. His expertise spans solution architecture, document management, system integration, web content management, business process management, imaging and input management, and custom application development. Currently, Pawan provides consulting and training services through doQuent (<http://doquent.com>), which was founded with the vision of enabling client success in content-related business initiatives. He also believes in giving back to the community. He founded the free online Documentum community dm_cram (<http://dmcram.org>), which is a test preparation resource for Documentum exams. He is also an active contributor to the Documentum-users Yahoo! User group, where Documentum community members seek help for their technical challenges. He can be reached at pk@doquent.com.

Users Review

From reader reviews:

David Patton:
