Hardy Heathers from the Northern Hemisphere: Calluna - Daboecia - Erica (Botanical Magazine Monograph) By E. Charles Nelson

The latest publication from the *Botanical Magazine Monograph* series, *Hardy Heathers from the Northern Hemisphere* is a fully illustrated guide to all the heather species that grow naturally in the Northern Hemisphere. Covered in detail are the distribution, classification, and conservation of three genera—*Calluna*, *Daboecia*, and *Erica*—supplemented by a history of heathers in cultivation and a select list of the best cultivars. Extensively illustrated with stunning botanical art by Christabel King, this will be an indispensable reference for heather enthusiasts and gardeners, as well as botanists, ecologists, and conservationists with interests in heaths and heath lands.
