Diagnostic Pathology: Neuropathology, 2e By B.K. Kleinschmidt-DeMasters MD, Tarik Tihan MD PhD, Fausto Rodriguez MD

Part of the highly regarded *Diagnostic Pathology* series, ***Diagnostic Pathology: Neuropathology*** is a **visually stunning, easy-to-use reference** covering all aspects of neuropathology. Nearly 1,700 outstanding images, including a wide variety of pathology stains and high-quality medical illustrations, make this **an invaluable diagnostic aid** for every practicing pathologist, resident, or fellow. This second edition incorporates the most recent clinical, pathological, histological, and molecular knowledge in the field to provide a comprehensive overview of all key issues relevant to today's practice.

- **Expert Consult eBook version included**, which allows you to search all of the text, figures, and references from the book on a variety of devices.
- **Thoroughly updated content throughout** includes new biomarkers and genetic markers; new diagnostic, therapeutic, and prognostic techniques; new entities and antibodies; new immunohistochemical markers; the new "integrated" diagnosis schema; and much more.
- **Features exclusive images** not found in the 2016 updated WHO Classification system of CNS neoplasms.
- **Presents complete information** on lesions of the brain, sellar region, and peripheral nerves, as well as benign cysts and selected infectious, inflammatory, reactive, vascular, and cortical dysplastic lesions.
- **High-quality, carefully annotated color images** (both common and rare) depict classic pathological features as well as variant patterns that are prone to creating diagnostic problems.
- **Time-saving reference features** include bulleted text, a variety of test data tables, key facts in each chapter, annotated images, and an extensive index.

Editorial Review

Review

"The authors have succeeded in producing a book that is a reliable resource and a joy to read. It is clearly the product of collaborative effort by experts and is a special achievement in a crowded field."

The book will serve at daily sign-out and enhance teaching activities. Neuropathologists at every level will be rewarded and delighted by it. It is also highly recommended for any medical student, trainee, staff physician, or basic scientist with an interest in lesions of the central and peripheral nervous systems."

- Sherry Krawitz, BSc, MD, PhD, BA, MA (University of Manitoba College of Medicine) **Doody's Score: Score: 91 - 4 Stars!**

"The text is more encompassing in scope and somewhat more descriptive in the text material than the prior edition...For the true student (we are all students) of neuroradiology, these books are a must, if not as a personal purchase (preferred) then for having direct access to them through a departmental or sectional library."

-American Journal of Neuroradiology Blog (April 2016)

Users Review

From reader reviews:

Robert Kuehner:

Here thing why this particular Diagnostic Pathology: Neuropathology, 2e are different and reputable to be yours. First of all reading through a book is good but it really depends in the content of computer which is the content is as scrumptious as food or not. Diagnostic Pathology: Neuropathology, 2e giving you information deeper as different ways, you can find any e-book out there but there is no reserve that similar with Diagnostic Pathology: Neuropathology, 2e. It gives you thrill reading through journey, its open up your current eyes about the thing that happened in the world which is perhaps can be happened around you. You can actually bring everywhere like in recreation area, café, or even in your way home by train. Should you be having difficulties in bringing the imprinted book maybe the form of Diagnostic Pathology: Neuropathology, 2e in e-book can be your alternative.

Clara Demoss:

The reason? Because this Diagnostic Pathology: Neuropathology, 2e is an unordinary book that the inside of the publication waiting for you to snap the idea but latter it will distress you with the secret it inside. Reading this book alongside it was fantastic author who also write the book in such remarkable way makes the content interior easier to understand, entertaining approach but still convey the meaning thoroughly. So , it is good for you for not hesitating having this anymore or you going to regret it. This excellent book will give

you a lot of gains than the other book possess such as help improving your skill and your critical thinking way. So , still want to delay having that book? If I were you I will go to the guide store hurriedly.

Harold Morris:

Reading can called thoughts hangout, why? Because if you find yourself reading a book specifically book entitled Diagnostic Pathology: Neuropathology, 2e your brain will drift away trough every dimension, wandering in every single aspect that maybe unidentified for but surely will end up your mind friends. Imaging each word written in a guide then become one web form conclusion and explanation that maybe you never get prior to. The Diagnostic Pathology: Neuropathology, 2e giving you an additional experience more than blown away your head but also giving you useful information for your better life in this era. So now let us show you the relaxing pattern at this point is your body and mind is going to be pleased when you are finished studying it, like winning a casino game. Do you want to try this extraordinary paying spare time activity?

Pilar Porter:

This Diagnostic Pathology: Neuropathology, 2e is great book for you because the content which can be full of information for you who else always deal with world and have to make decision every minute. This particular book reveal it info accurately using great manage word or we can point out no rambling sentences inside it. So if you are read this hurriedly you can have whole information in it. Doesn't mean it only provides straight forward sentences but tricky core information with splendid delivering sentences. Having Diagnostic Pathology: Neuropathology, 2e in your hand like having the world in your arm, information in it is not ridiculous one particular. We can say that no publication that offer you world with ten or fifteen moment right but this reserve already do that. So , this really is good reading book. Hey Mr. and Mrs. stressful do you still doubt in which?
