The Medical School Interview: Winning Strategies from Admissions Faculty

By Samir P. Desai, Rajani Katta

Did you know that the interview is the most important factor in admissions decisions? What can you do to achieve maximum success during the interview?

In 2011, the AAMC published a survey that evaluated the importance of 12 variables on admissions decisions. These variables included total MCAT scores, science and math GPA, and the interview. The interview was rated the most important factor, receiving a score of 4.5 (scale of 1 [not important] to 5 [extremely important]).

High GPA and MCAT scores do not guarantee admission. In the aforementioned study, approximately 8% of applicants with undergraduate GPAs and total MCAT scores of at least 3.8 and 39, respectively, failed to gain admission. As you can see, the interview is never just a formality. It can absolutely make or break your chances of acceptance. Consider the following:

- "The interview is an important and integral part of the selection process," writes the David Geffen School of Medicine at UCLA.
- "Faculty interviews with critical evaluations are the only method...for the assessment of the important nonacademic attributes..." writes the Penn State College of Medicine. "The Selection Committee places great importance on these evaluations in making decisions on admission."
- "High grades and/or MCAT scores alone are never enough," writes the LSU Shreveport School of Medicine. "For those interviewed, impressions from the personal interview are exceedingly important."

What does it take to impress a medical school interviewer? We review the data on the decision-makers. What do these interviewers care about? We review the data on the criteria that matter to them? How can you convince them that you would be the right "fit" for their school? We provide concrete, practical recommendations based on this data.

Our recommendations are based on data from a full spectrum of sources. We have scoured the research on medical school admissions and discussed the

interview process with deans and admissions committee members to give you the detailed information needed to deliver compelling answers to interview questions. How can you best prepare for the MMI, group interview, panel interview, and behavioral interview? What qualities would make applicants less likely to be admitted? What personal qualities are most valued by admissions faculty?

In our book, you'll find the answers to these questions and much more. Learn how to develop the optimal strategy for interview success and gain that extra edge.

Note: This book provides an overview of the MMI. For applicants seeking detailed guidance for the Multiple Mini Interview (MMI), please see our book *Multiple Mini Interview: Winning Strategies From Admissions Faculty*.

Editorial Review

Review

"Either way, this is an extremely thorough handbook, covering the questions applicants are likely to be asked and the appropriate and inappropriate answers...likely to be found indispensable by readers embarking on the arduous process of applying to medical school."

- Kirkus Reviews

From the Back Cover

Studies have found that the interview is the most important factor in admissions decisions. What can students do to achieve maximum success during the interview?

- A survey of medical schools identified the personal characteristics that are most highly valued in applicants. What are they, and how can students emphasize these qualities during interviews?
- Do you know how to prepare for the multiple-mini interview (MMI)? This approach is being increasingly used by medical schools across the country, and requires that the applicant move from one station to another, responding to scenarios, tasks, or questions. **NOTE: This book provides an overview of the MMI process. We will be publishing an extensive book covering MMI preparation in June 2015 - Multiple Mini Interview (MMI): Winning Strategies from Admissions Faculty - written by Dr. Samir Desai**
- Research has identified qualities that would make applicants less likely to be admitted. How can applicants avoid suggesting these qualities during the interview?
- Have you read about the ethical dilemmas facing modern medicine? Researchers found that approximately 10% of interview questions focused on resolving an ethical dilemma.
- The questions that you ask during an interview can either strengthen your application or weaken it. What questions should you avoid asking?
- What are your weaknesses? Why are you interested in our school? These standard interview questions are most often met with standard, generic responses. This represents a significant lost opportunity. Learn how you can deliver memorable and impressive responses that stand out.

Utilizing a unique combination of evidence-based advice and an insider's perspective, this book will help you

achieve your ultimate goal:

MEDICAL SCHOOL

About the Author

Dr. Samir Desai has served on the medical school admissions committee at the Baylor College of Medicine for about ten years. He is the author of 16 books, including the best-selling *Success in Medical School: Insider Advice for the Preclinical Years*. To help students reduce the cost of medical education and strengthen their credentials for the residency match, he wrote the book, *Medical School Scholarships, Grants, and Awards: Insider Advice on How to Win Scholarships*. He provides mock interview consulting services to applicants at TheSuccessfulMatch.com.

Dr. Rajani Katta is Professor of Dermatology at the Baylor College of Medicine. She is the author of *The Successful Match: 200 Rules to Succeed in the Residency Match*.

Users Review

From reader reviews:

Shirley Cochran:

This specific book was inspired a number of people in the world. When you read this guide you will enter the new dimensions that you ever know ahead of. The author explained their strategy in the simple way, and so all of people can easily to know the core of this publication. This book will give you a lot of information about this world now. To help you see the represented of the world on this book.

Hazel Gannon:

A lot of people always spent their very own free time to vacation or even go to the outside with their family or their friend. Do you know? Many a lot of people spent their free time just watching TV, as well as playing video games all day long. If you want to try to find a new activity that is look different you can read a new book. It is really fun for you. If you enjoy the book that you simply read you can spent the whole day to reading a guide. The book *The Medical School Interview: Winning Strategies from Admissions Faculty* it is extremely good to read. There are a lot of individuals who recommended this book. These folks were enjoying reading this book. When you did not have enough space bringing this book you can buy the e-book. You can more effortlessly to read this book out of your smart phone. The price is not too expensive but this book has high quality.

Brian Scheele:

That e-book can make you to feel relax. This book *The Medical School Interview: Winning Strategies from Admissions Faculty* was bright colored and of course has pictures on there. As we know that book *The Medical School Interview: Winning Strategies from Admissions Faculty* has many kinds or style. Start from

kids until teenagers. For example Naruto or Private eye Conan you can read and think you are the character on there. So , not at all of book are make you bored, any it can make you feel happy, fun and chill out. Try to choose the best book for you personally and try to like reading that.

Betty Jordan:

As a scholar exactly feel bored in order to reading. If their teacher asked them to go to the library or make summary for some publication, they are complained. Just minor students that has reading's heart and soul or real their hobby. They just do what the educator want, like asked to the library. They go to generally there but nothing reading seriously. Any students feel that examining is not important, boring and can't see colorful pictures on there. Yeah, it is being complicated. Book is very important for you. As we know that on this period of time, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. Therefore this The Medical School Interview: Winning Strategies from Admissions Faculty can make you experience more interested to read.
