Architectural Rendering with 3ds Max and V-Ray: Photorealistic Visualization By Markus Kuhlo, Enrico Eggert

Create high-quality photorealistic renders of architectural visualizations using 3ds Max and Vray with the project-based tutorials in this book. Learn how to combine lighting and rendering options to end-up with the most realistic final renders possible at a professional level. The tutorials in this book are filled with beautiful full-color images and they teach you how to light both interiors and exteriors and daytime and nighttime scenes. Learn how to save time without sacrificing the quality of your final renders with tips and tricks on rendering with Vray - the most accurate rendering application for 3ds Max. The companion CD includes all the project files that you need to recreate each of the projects presented within the book. Please note that this book does not support the current versions of 3ds Max and V-Ray.

Editorial Review

Review

"This guide to creating architectural models with Autodesk's popular modeling, animation and rendering application, 3ds Max, provides a collection of lessons for designing sample room visualization projects and rendering them with the V-Ray rendering engine. The work begins with an overview of software functions and modeling and rendering theory and continues with four sample projects including a loft apartment in daylight, a bathroom, a bedroom at night and a simple house exterior. Chapters provide step-by-step instructions and numerous screen shots and a CD-ROM containing all project files is included."--**Reference and Research Book News**

"The tutorials in this book are filled with beautiful full-color images and they teach you how to light both interiors and exteriors, and daytime and nighttime scenes, and more. The companion CD includes all the project files that you need to recreate each of the projects presented in this book."--**NeoPopRealism**

Users Review

From reader reviews:

Debra Rubino:

Why don't make it to be your habit? Right now, try to ready your time to do the important work, like looking for your favorite book and reading a guide. Beside you can solve your condition; you can add your knowledge by the publication entitled Architectural Rendering with 3ds Max and V-Ray: Photorealistic Visualization. Try to stumble through book Architectural Rendering with 3ds Max and V-Ray: Photorealistic Visualization as your close friend. It means that it can being your friend when you feel alone and beside that course make you smarter than ever. Yeah, it is very fortunated for you. The book makes you far more confidence because you can know every thing by the book. So , let's make new experience and knowledge with this book.

Frances Smith:

As people who live in typically the modest era should be change about what going on or details even knowledge to make these individuals keep up with the era that is always change and move forward. Some of you maybe will probably update themselves by reading through books. It is a good choice for you but the problems coming to you is you don't know what kind you should start with. This Architectural Rendering with 3ds Max and V-Ray: Photorealistic Visualization is our recommendation to make you keep up with the world. Why, since this book serves what you want and need in this era.

Kathryn Botello:

Beside that Architectural Rendering with 3ds Max and V-Ray: Photorealistic Visualization in your phone, it

can give you a way to get more close to the new knowledge or data. The information and the knowledge you are going to get here is fresh from your oven so don't possibly be worry if you feel like an previous people live in narrow town. It is good thing to have Architectural Rendering with 3ds Max and V-Ray: Photorealistic Visualization because this book offers for you readable information. Do you occasionally have book but you don't get what it's about. Oh come on, that wil happen if you have this within your hand. The Enjoyable agreement here cannot be questionable, including treasuring beautiful island. Use you still want to miss it? Find this book in addition to read it from right now!

Juli Gadberry:

What is your hobby? Have you heard which question when you got college students? We believe that that question was given by teacher to the students. Many kinds of hobby, Everyone has different hobby. And you also know that little person just like reading or as studying become their hobby. You need to know that reading is very important along with book as to be the issue. Book is important thing to include you knowledge, except your personal teacher or lecturer. You find good news or update regarding something by book. Many kinds of books that can you go onto be your object. One of them is actually Architectural Rendering with 3ds Max and V-Ray: Photorealistic Visualization.
