The Hispanic World in Crisis and Change: 1598 - 1700 By John Lynch

The seventeenth century has gained enormously from the resurgence of historical studies in Spain and from the contributions of historians outside the peninsula. In this book, John Lynch has taken account of this research to substantially revise and expand his *Spain Under the Hapsburgs, Volume II*. It retains its previous framework, and provides a penetrating account of Spanish society, economy, government and politics during this period.

Editorial Review

Review

"Many besides Hispanists who rejoiced in 1964-9 when Professor Lynch gave them a balanced and thoroughly readable account of the two centuries of Spanish history under the Habsburgs must warmly welcome the new editions which form part of Blackwell's *History of Spain*." *History*

"This useful collection deserves a wide readership. The appearance of a revised version of the second volume of John Lynch's *Spain under the Habsburgs* is welcome." *European History Quarterly*

"It is still the major work of synthesis written in English. The fact that it is but one part of an ambitious fourteen volume collection covering Spanish history from prehistoric to modern times perhaps enhances its value." *Sixteenth Century Journal*

From the Back Cover

In this book, now available in paper, John Lynch has substantially revised and expanded his *Spain Under the Habsburgs, Volume II*, taking account of the research of the last decade and the interests of modern historians. The book retains its previous framework and preserves the character which has made it one of the most quoted works on Spain's century of adversity. It continues to cast a penetrating eye on the regime of Philip III and Lerma, the imperial policies of Philip IV and Olivares, the mid-century revolutions, the chronology of depression, and the balance of progress and poverty under Charles II. And it still provides the most comprehensive and challenging account of the role of America in the Hispanic world and of the changing relations between colonies and metropolis.

About the Author

John Lynch has spent most of his academic career in the University of London, first at University College, then the Institute of Latin-American Studies. His research interests have centered on the Hispanic world in the colonial and independence periods.
