Boger Boenninghausen's Characteristics & Repertory With Corrected Abbreviations, Word Index & Thumb Index By Cyrus Maxwell Boger, Thomas Lindsley Bradford, Shashi Kant Tiwari

Essentially a collection of all of Boenninghausen's work into one book, this treatise contains both a Materia Medica and a Repertory. The Boenninghausen method emphasises modalities and the characteristic aspects of symptoms and has particular utility when addressing these issues. One of the greatest pieces of homeopathic literature, incorporating the combined observations & logic of Boenninghausen & the wide & wise observations garnered by Dr. Boger from long years of study & practice. Very useful for working out cases rich in particulars. It introduced several newer features such as complete symptom, fever totality, clinical rubrics, separate concomitants & pathological generals.

Editorial Review

About the Author

Cyrus Maxwell Boger was born on May 13, 1861 in western Pennsylvania, the son of Cyrus and Isabelle Maxwell Boger. He received his elementary education in the public schools of Lebanon, Pa., then graduated in pharmacy from the Philadelphia College of Pharmacy and later in medicine from Hahnemann Medical College of Philadelphia. He settled in Parkersburg, W. Va., in 1888 where a long and very large practise was his, patients consulting him from neighboring states and from distant states and countries. His ambition was to devote all his time to teaching and writing but he never reached the point of giving up his practise. However, he frequently lectured before scientific audiences at the Pulte Medical College in Cincinnati and was a teacher of philosophy, materia medica, and repertory study in the American Foundation for Homoeopathy Postgraduate School from 1924 until his death. Boger, who was a german scholar, brought Boenninghausen's Characteristics and Repertory into the English Language in 1905. He was married three times. A daughter of the first marriage died quite young. The second marriage brought him four sons and five daughters. His third wife, Anna M. Boger, was his secretary and constant helper. He died on September 2, 1935, aged 74, from food-poisoning after eating a tin of home-preserved tomatoes. He was a devoted follower of the Boenninghausen method of a repertory study, as all his published works show.

Users Review

From reader reviews:

Patrick Walker:
