Microeconometrics Using Stata: Revised Edition By A. Colin Cameron, Pravin K. Trivedi

A complete and up-to-date survey of microeconomic methods available in Stata, **Microeconometrics Using Stata, Revised Edition** is an outstanding introduction to microeconometrics and how to execute microeconomic research using Stata. It covers topics left out of most microeconometrics textbooks and omitted from basic introductions to Stata.

This revised edition has been updated to reflect the new features available in Stata 11 that are useful to microeconomists. Instead of using `mfx` and the user-written `margeff` commands, the authors employ the new `margins` command, emphasizing both marginal effects at the means and average marginal effects. They also replace the `xi` command with factor variables, which allow you to specify indicator variables and interaction effects. Along with several new examples, this edition presents the new `gmm` command for generalized method of moments and nonlinear instrumental-variables estimation. In addition, the chapter on maximum likelihood estimation incorporates enhancements made to `ml` in Stata 11.

Throughout the book, the authors use simulation methods to illustrate features of the estimators and tests described and provide an in-depth Stata example for each topic discussed. They also show how to use Stata's programming features to implement methods for which Stata does not have a specific command. The unique combination of topics, intuitive introductions to methods, and detailed illustrations of Stata examples make this book an invaluable, hands-on addition to the library of anyone who uses microeconomic methods.

Users Review

From reader reviews:

Louise Fulghum:

What do you with regards to book? It is not important to you? Or just adding material if you want something to explain what your own problem? How about your spare time? Or are you busy person? If you don't have spare time to accomplish others business, it is make one feel bored faster. And you have spare time? What did you do? Everybody has many questions above. They must answer that question since just their can do this. It said that about guide. Book is familiar in each person. Yes, it is correct. Because start from on guardería until university need this particular Microeconometrics Using Stata: Revised Edition to read.

Sandra Vincent:

Playing with family in a park, coming to see the water world or hanging out with close friends is thing that usually you may have done when you have spare time, after that why you don't try factor that really opposite from that. A single activity that make you not experiencing tired but still relaxing, trilling like on roller coaster you are ride on and with addition of knowledge. Even you love Microeconometrics Using Stata: Revised Edition, you can enjoy both. It is good combination right, you still need to miss it? What kind of hang-out type is it? Oh seriously its mind hangout folks. What? Still don't understand it, oh come on its referred to as reading friends.

Pandora Rice:

Are you kind of stressful person, only have 10 or maybe 15 minute in your time to upgrading your mind proficiency or thinking skill actually analytical thinking? Then you are receiving problem with the book as compared to can satisfy your small amount of time to read it because this time you only find e-book that need more time to be study. Microeconometrics Using Stata: Revised Edition can be your answer because it can be read by you actually who have those short spare time problems.

David Cormier:

In this age globalization it is important to someone to get information. The information will make someone to understand the condition of the world. The fitness of the world makes the information quicker to share. You can find a lot of referrals to get information example: internet, paper, book, and soon. You can see that

now, a lot of publisher which print many kinds of book. Often the book that recommended to you is Microeconometrics Using Stata: Revised Edition this publication consist a lot of the information in the condition of this world now. This specific book was represented how does the world has grown up. The terminology styles that writer use to explain it is easy to understand. The writer made some analysis when he makes this book. This is why this book ideal all of you.
