Editorial Review

About the Author

John C. Kotz is an emeritus State University of New York Distinguished Teaching Professor at the College at Oneonta. Educated at Washington and Lee University, as well as Cornell University, he held National Institutes of Health postdoctoral appointments at the University of Manchester Institute for Science and Technology in England and at Indiana University. Professor Kotz has co-authored three textbooks in several editions - INORGANIC CHEMISTRY, CHEMISTRY & CHEMICAL REACTIVITY, and THE CHEMICAL WORLD - along with the INTERACTIVE GENERAL CHEMISTRY CD-ROM. He also has published research on inorganic chemistry and electrochemistry. He was a Fulbright Lecturer and Research Scholar in Portugal in 1979 and a visiting professor there in 1992, as well as a visiting professor at the Institute for Chemical Education (University of Wisconsin, 1991-1992) and at Auckland University in New Zealand (1999). He also was an invited speaker at a meeting of the South African Chemical Society and at the biennial conference for secondary school chemistry teachers in New Zealand. In addition, a recent tenure as a mentor of the U.S. Chemistry Olympiad Team, Professor Kotz has received numerous honors, including a State University of New York Chancellor's Award (1979), a National Catalyst Award for Excellence in Teaching (1992), the Estee Lectureship in Chemical Education at the University of South Dakota (1998), the Visiting Scientist Award from the Western Connecticut Section of the American Chemical Society (1999), and the first annual Distinguished Education Award from the Binghamton (New York) Section of the American Chemical Society (2001).

Paul M. Treichel, received his B.S. degree from the University of Wisconsin in 1958 and a Ph.D. from Harvard University in 1962. After a year of postdoctoral study in London, he assumed a faculty position at the University of Wisconsin-Madison. He served as department chair from 1986 through 1995 and was awarded a Helfaer Professorship in 1996. He has held visiting faculty positions in South Africa (1975) and in Japan (1995). Retiring after 44 years as a faculty member in 2007, he is currently Emeritus Professor of Chemistry. During his faculty career he taught courses in general chemistry, inorganic chemistry, organometallic chemistry, and scientific ethics. Professor Treichel's research in organometallic and metal cluster chemistry and in mass spectrometry, aided by 75 graduate and undergraduate students, has led to more than 170 papers in scientific journals. He may be contacted by email at treichelpaul@me.com.

John R. Townsend, Professor of Chemistry at West Chester University of Pennsylvania, completed his B.A. in Chemistry as well as the Approved Program for Teacher Certification in Chemistry at the University of Delaware. After a career teaching high school science and mathematics, he earned his M.S. and Ph.D. in biophysical chemistry at Cornell University, where he also received the DuPont Teaching Award for his work as a teaching assistant. After teaching at Bloomsburg University, he joined the faculty at West Chester University, where he coordinates the chemistry education program for prospective high school teachers and the general chemistry lecture program for science majors. He has been the university supervisor for more than 60 prospective high school chemistry teachers during their student teaching semester. His research interests are in the fields of chemical education and biochemistry. He may be contacted by email at jtownsend@wcupa.edu.

Users Review

From reader reviews:

Gary McKinney:

Do you have favorite book? Should you have, what is your favorite's book? Reserve is very important thing for us to be aware of everything in the world. Each e-book has different aim as well as goal; it means that reserve has different type. Some people feel enjoy to spend their time to read a book. They can be reading whatever they consider because their hobby will be reading a book. How about the person who don't like reading through a book? Sometime, man feel need book once they found difficult problem or even exercise. Well, probably you should have this Chemistry and Chemical Reactivity, Volume 2.

Mary Gilbert:

Often the book Chemistry and Chemical Reactivity, Volume 2 will bring you to definitely the new experience of reading some sort of book. The author style to clarify the idea is very unique. In the event you try to find new book to learn, this book very appropriate to you. The book Chemistry and Chemical Reactivity, Volume 2 is much recommended to you you just read. You can also get the e-book through the official web site, so you can easier to read the book.

Mark Johnson:

The guide with title Chemistry and Chemical Reactivity, Volume 2 possesses a lot of information that you can study it. You can get a lot of help after read this book. This kind of book exist new understanding the information that exist in this publication represented the condition of the world now. That is important to yo7u to know how the improvement of the world. This specific book will bring you with new era of the globalization. You can read the e-book on your own smart phone, so you can read the item anywhere you want.

Sharon Scott:

Many people spending their time period by playing outside with friends, fun activity having family or just watching TV all day every day. You can have new activity to shell out your whole day by examining a book. Ugh, do you consider reading a book can definitely hard because you have to bring the book everywhere? It okay you can have the e-book, having everywhere you want in your Cell phone. Like Chemistry and Chemical Reactivity, Volume 2 which is keeping the e-book version. So, why not try out this book? Let's observe.
