Direct Pointing to Real Wealth: Thomas J. Elpel's Field Guide to Money By Thomas J. Elpel

All living organisms consume energy, modify resources from the environment and produce waste. That is an inescapable fact of life. But in nature all material wastes are recycled as inputs to other living organisms. The only true waste is diffuse, low-grade heat.

In order to create a truly sustainable economy we must mimic the ecosystem so that the waste of every household and business becomes resource inputs to other enterprises and the only waste produced is diffuse, low-grade heat from renewable resources like solar.

In *Direct Pointing to Real Wealth* author Thomas J. Elpel demonstrates that it is inevitable that we will create an ecologically sustainable economy. Tom turns conventional thinking on its head and out-lines steps you can take to increase your prosperity right now while closing the loop on waste and speeding the transition to a greener world.

Direct Pointing to Real Wealth is an enlightened look at the nature of money. Discover how the economy is like an ecosystem and how money is a token we use to represent calories of energy in the ecosystem. Tom's unique approach to money takes you beyond the numbers game to a direct examination of the laws of physics, biology, and economics. These laws are the same today as in the Stone Age, when people worked only a few hours per day and had much more leisure time than we do now.

Whether you are raising a family or running a business, Tom's book gives you a fresh new look at economics, ecology and how to achieve your Dreams. Break through perceived limitations to discover a world of prosperity and abundance!

Editorial Review

Review

You have been a tremendous inspiration to us. Your books positively took ideas that had been running around in my head for years and tied them together for the foundation of my thinking. Without your books and ideas, I would still be trying to fit all my ideas and philosophies into one big picture. You've helped me get all those thoughts into goals, realistic goals, and I thank you. --John Y. / Wausau, Wisconsin

About the Author

Prosperity on an income of less than \$15,000 a year? Tom Elpel proved that anyone can still live the American Dream-- to own a quality home free and clear of a mortgage! With few resources to start from, Tom and his wife squeezed \$50,000 worth of benefit from a minimal annual income. With no house payment, low energy bills, and few other expenses, the Elpel's gained the freedom to do pretty much whatever they want, whenever they want too.

Direct Pointing to Real Wealth was inspired by Tom's interest in nature and his desire to show that it is more profitable to work with the environment rather than against it. Tom is also the author of several other books inspired by nature, including Participating in Nature, Botany in a Day, Living Homes, and Roadmap to Reality.

Users Review

From reader reviews:

Philip Raber:

Now a day people that Living in the era everywhere everything reachable by connect to the internet and the resources included can be true or not call for people to be aware of each information they get.
