Practice Anatomy Lab 3.0 Lab Guide with PAL 3.0 DVD By Ruth Heisler, Nora Hebert, Jett Chinn, Karen Krabbenhoft, Olga Malakhova

The **Practice Anatomy Lab™ 3.0 Lab Guide** provides students with engaging, structured exercises and quizzes to maximize their anatomy lab experience using PAL™ 3.0. Whether a student is using PAL 3.0 in an on-campus “wet” lab, in an online “virtual” lab, or in a combination “hybrid” lab course, they will save study time by using the Activity Guide to direct their learning, stay on task, and reinforce their comprehension.

Editorial Review

About the Author

Ruth E. Heisler is a senior instructor in the Department of Integrative Physiology at the University of Colorado at Boulder where she teaches and coordinates several courses, including Human Anatomy, Comparative Vertebrate Anatomy, and Forensic Biology. Ms. Heisler received her B.S. in Biology from the University of Minnesota, and her M.A. in Biology from the University of Colorado. She has been an instructor at the University of Colorado for 14 years. At the University of Colorado, Ms. Heisler has worked extensively with the Science Education Initiative to improve both the teaching and understanding of scientific material at the undergraduate level. In addition, she has been involved in academic outreach through workshops with the American Academy of Forensic Sciences and the Biological Sciences Initiative. She has been a consultant on projects with the Center for Human Simulation, working with data generated through the Visible Human Project. Additionally, she is an active member of the Human Anatomy and Physiology Society (HAPS), where she has presented workshops on the use of Practice Anatomy Lab as an assessment tool in the classroom.

Ms. Heisler has been deeply involved in the development of Practice Anatomy Lab for nearly five years, as co-author of versions 2.0 and 3.0. She has also authored a custom laboratory manual developed for a large, cadaver-based Human Anatomy Lab course.

In her spare time, Ms. Heisler enjoys spending time in the mountains and traveling with her husband and two young sons.

Nora Hebert currently teaches undergraduate courses in Anatomy and Physiology at Red Rocks Community College near Denver, Colorado. Although most of her students are undergraduates, primarily interested in the allied health professions, Dr. Hebert has also taught graduate-level Human Physiology for the College's Physician Assistant Program. Dr. Hebert received a Ph.D. in Endocrinology from the University of California at Berkeley. Although her research interests have primarily been in basic science, she became familiar with the research phase of drug development while doing a postdoctoral fellowship in the private sector. It was during this fellowship that Dr. Hebert decided to pursue teaching as a profession. Dr. Hebert is an active faculty member at Red Rocks, serving on the faculty senate, the honors program committee, and the admissions and executive committees for the Physician Assistant Program. She is also part of the College's Campus Green Initiative. Dr. Hebert has consulted in the development of an interactive virtual knee, known as the Explorable Virtual Human, with the Center for Human Simulation at the University of Colorado Health Sciences Center. She has also been involved with the Visible Human Dissector program, advising K-12 teachers and postsecondary instructors on how best to implement the Dissector in their classrooms. Dr. Hebert has been deeply involved in the development of Practice Anatomy Lab for nearly five years, as co-author of versions 2.0 and 3.0. She is also the author of over 60 A&P Flix™ animations covering muscle physiology, neurophysiology, and muscle origins, actions, insertions and innervations.

Jett Chinn is an instructor of Human Anatomy in the Science and Technology Division of Cañada College (Redwood City, CA), and also the Life and Earth Sciences Department at the College of Marin (Kentfield, CA). Mr. Chinn has 20 years of experience teaching Human Anatomy at several Bay Area institutions. He has taught Stomatology courses for first-year dental students at the UC San Francisco School of Medicine; undergraduate-level human anatomy courses at San Francisco State University; lower extremity anatomy and general human anatomy lab courses at California College of Podiatric Medicine; and general anatomy lab courses at Touro University College of Osteopathic Medicine. Mr. Chinn's work in the classroom has

inspired students to pursue careers in nursing, physical and occupational therapy, radiology, medicine, dentistry and other health-related fields. Mr. Chinn received a B.A. in general biology from San Francisco State University and a B.F.A. in painting from the California College of Arts and Crafts.

Karen M. Krabbenhoft is a senior lecturer in the Department of Neuroscience at the University of Wisconsin in Madison. During her 18-year career, Dr. Krabbenhoft's focus has been on teaching students at all levels of their educational process, including undergraduate, physician assistant and medical students. She has been recognized by the University with several awards, including two Medical Alumni Association Distinguished Teaching Awards for the Basic Sciences (1998, 2007), the Dean's Teaching Award (2000), and the Gender Equity Award (1998). Most recently, Dr Krabbenhoft was selected by the graduating class to receive the Pre-Clinical Teaching Award in 2011.

Dr. Krabbenhoft earned her Ph.D. in Anatomy from the University of Wisconsin. After working as a research specialist, she entered the classroom to teach a wide variety of courses including Histology and Organology, Human Gross Anatomy, Functional Neuroscience, and Medical Pathology. Dr. Krabbenhoft is always searching for better resources to facilitate students' learning of human anatomy and has worked with academic publishers as a reviewer and advisor for several textbooks and media products. Outside the University, Dr. Krabbenhoft enjoys spending time with her husband and children at their lake home, photographing her children's athletic events, and crafting with stained glass.

Olga Malakhova is an assistant scholar in the Department of Anatomy and Cell Biology at the University of Florida College of Medicine in Gainesville. Dr. Malakhova began teaching Gross Anatomy and Neuroscience in 1972 at Odessa Medical Institute in Ukraine. She has been teaching first-, second- and fourth-year medical students, as well as several Clinical Residency programs, at the University of Florida for the past 18 years. Dr. Malakhova's teaching excellence has been recognized by several awards, including six Exemplary Teacher awards from the University of Florida (2005, 2006, 2007, 2008, 2009, 2010). She was also recognized as a Master Educator by the University's Medical Education Faculty Development Program (2006). Dr. Malakhova received her M.D. from Odessa Medical Institute in Ukraine, and her Ph.D. in Neuroscience from the Brain Research Institute of the Russian Academy of Medical Sciences in Moscow. She has published numerous medical research papers, including two books for medical students. Dr. Malakhova is a member of the American Association of Clinical Anatomists (AACA). She is also an active reviewer of the AACA monthly publication. Outside the University, Dr. Malakhova's hobbies include listening to classical music, reading, enjoying water sports, and traveling with friends and family.

Users Review

From reader reviews:

Lee Rutledge:

Do you considered one of people who can't read enjoyable if the sentence chained inside the straightway, hold on guys this particular aren't like that. This Practice Anatomy Lab 3.0 Lab Guide with PAL 3.0 DVD book is readable through you who hate the straight word style. You will find the information here are arrange for enjoyable reading through experience without leaving also decrease the knowledge that want to deliver to you. The writer associated with Practice Anatomy Lab 3.0 Lab Guide with PAL 3.0 DVD content conveys thinking easily to understand by most people. The printed and e-book are not different in the information but it just different by means of it. So , do you even now thinking Practice Anatomy Lab 3.0 Lab Guide with PAL 3.0 DVD is not loveable to be your top collection reading book?

Serafina Hayes:

Information is provisions for anyone to get better life, information presently can get by anyone on everywhere. The information can be a information or any news even an issue. What people must be consider whenever those information which is within the former life are hard to be find than now is taking seriously which one is acceptable to believe or which one the particular resource are convinced. If you obtain the unstable resource then you have it as your main information you will see huge disadvantage for you. All those possibilities will not happen in you if you take Practice Anatomy Lab 3.0 Lab Guide with PAL 3.0 DVD as the daily resource information.

Louis Cline:

As a college student exactly feel bored in order to reading. If their teacher inquired them to go to the library as well as to make summary for some reserve, they are complained. Just tiny students that has reading's spirit or real their hobby. They just do what the trainer want, like asked to go to the library. They go to generally there but nothing reading significantly. Any students feel that reading is not important, boring in addition to can't see colorful images on there. Yeah, it is to be complicated. Book is very important for yourself. As we know that on this era, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. Therefore this Practice Anatomy Lab 3.0 Lab Guide with PAL 3.0 DVD can make you sense more interested to read.

Marlene Tiggs:

A lot of people said that they feel bored when they reading a reserve. They are directly felt the idea when they get a half parts of the book. You can choose the actual book Practice Anatomy Lab 3.0 Lab Guide with PAL 3.0 DVD to make your own personal reading is interesting. Your skill of reading talent is developing when you such as reading. Try to choose very simple book to make you enjoy to read it and mingle the sensation about book and examining especially. It is to be first opinion for you to like to available a book and examine it. Beside that the e-book Practice Anatomy Lab 3.0 Lab Guide with PAL 3.0 DVD can to be your friend when you're truly feel alone and confuse in doing what must you're doing of these time.
